CT[®] NASSAU
Tape, Jacquard And Stretch Ticking

This is CT Nassau

ITALIAN STYLE, GLOBAL VIEW

CT Nassau, partly owned by the Stellini Group, tries to combine both mattress fabrics and mattress tape edges to make your bedding stand out on the retail floor. Formed in 1991 after the acquisition of Nassau Tape & Webbing, Continental Ticking Corporation of America continues the 50-year textile tradition as parent company of CT Nassau Tape, LLC and CT Nassau Ticking, LLC.

Together we are CT Nassau

Our people work with attention to detail and a deep understanding of the property of bedding and furnishing fabrics. In this way we produce a top product that makes the difference for end customers.

OUR MATTRESS SIMULATOR

Combine everything
with a simple app.

Our mattress simulator

The App

Our customers can combine our newest designs between mattress panels, borders and tapes with a simple app.

INNOVATION

Discover our Add-ons

BIOCOOL

A unique thermal management technology: Biocool™ meets the USDA's criteria for biobased products and is registered in the USDA BioPreferred program with 94% biobased content. Biobased products come from renewable resources - which makes this technology more eco-friendly for the environment.

HYBRID_

NATURAL + TECHNICAL

Hybrid qualities are produced with a mixture of natural yarns and technical yarns. The balance between these elements confers to the fabric's better performance. Fabrics with a maximum array of functions that can be used in a wide variety of applications due to their good specific properties and limited environmental impact.

MORE INFORMATION

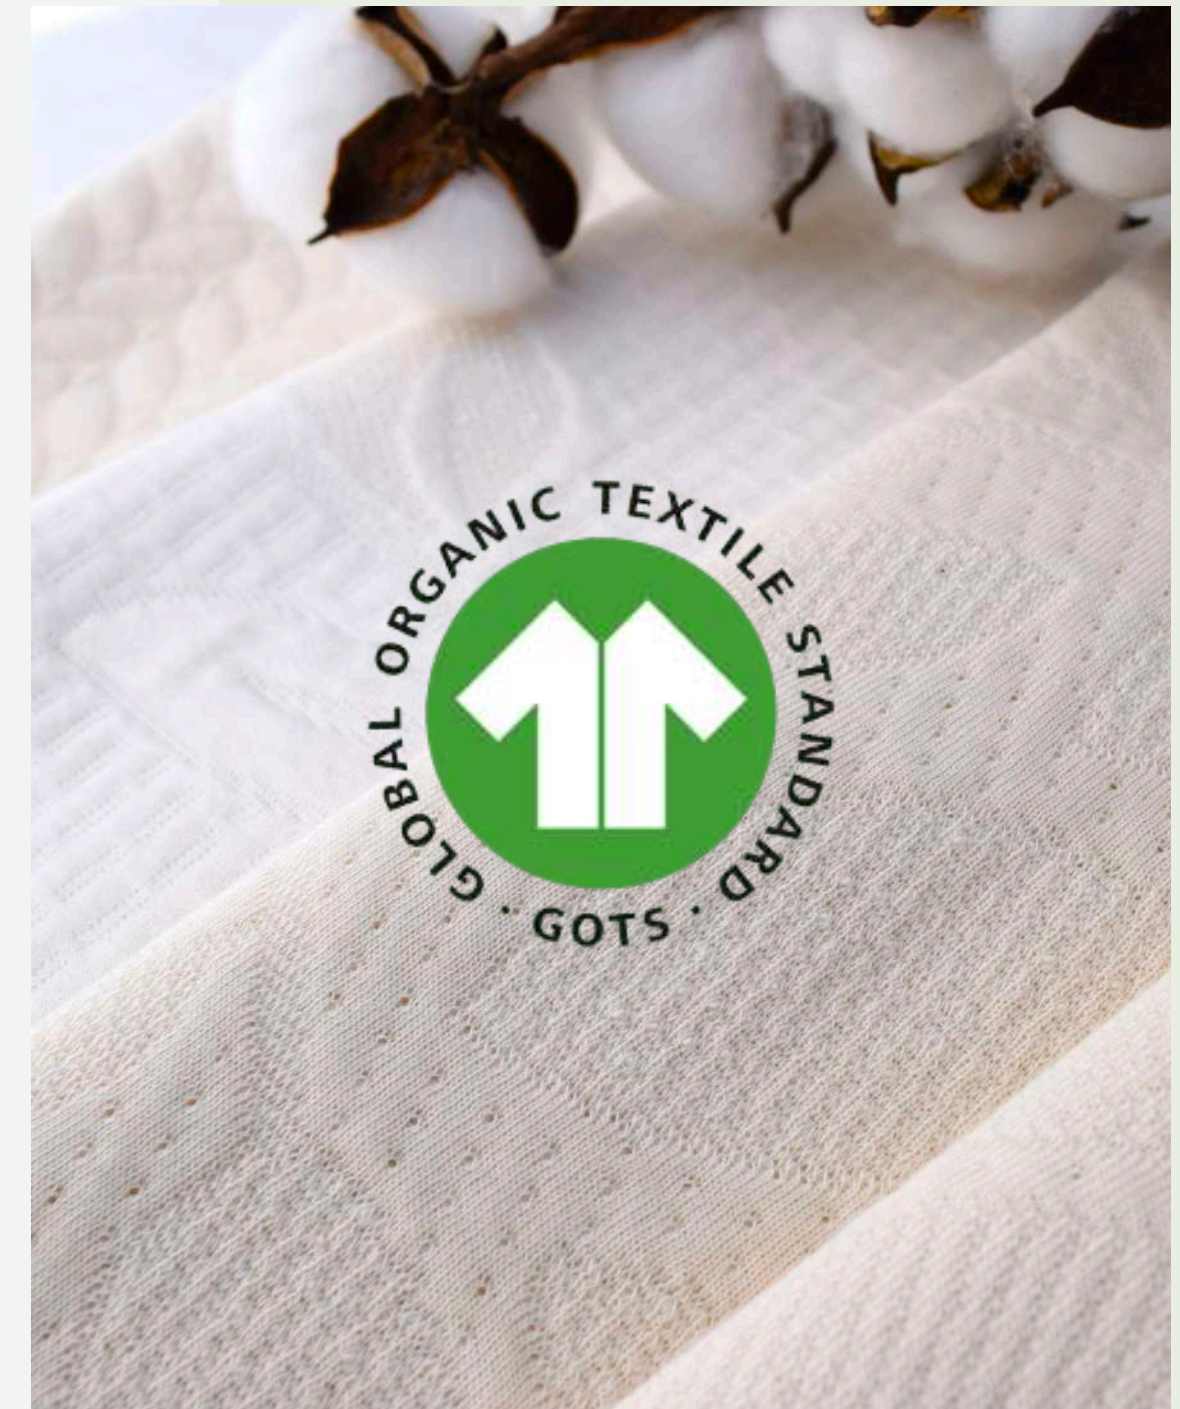

GOTS

CERTIFIED FABRICS

GOTS is the worldwide leading textile processing standard for organic fibres, including ecological and social criteria, backed up by independent certification of the entire textile supply chain. Having one common standard means textile processors and manufacturers can export their fabrics and garments with one organic certification that is accepted in all major markets.

RE-USE

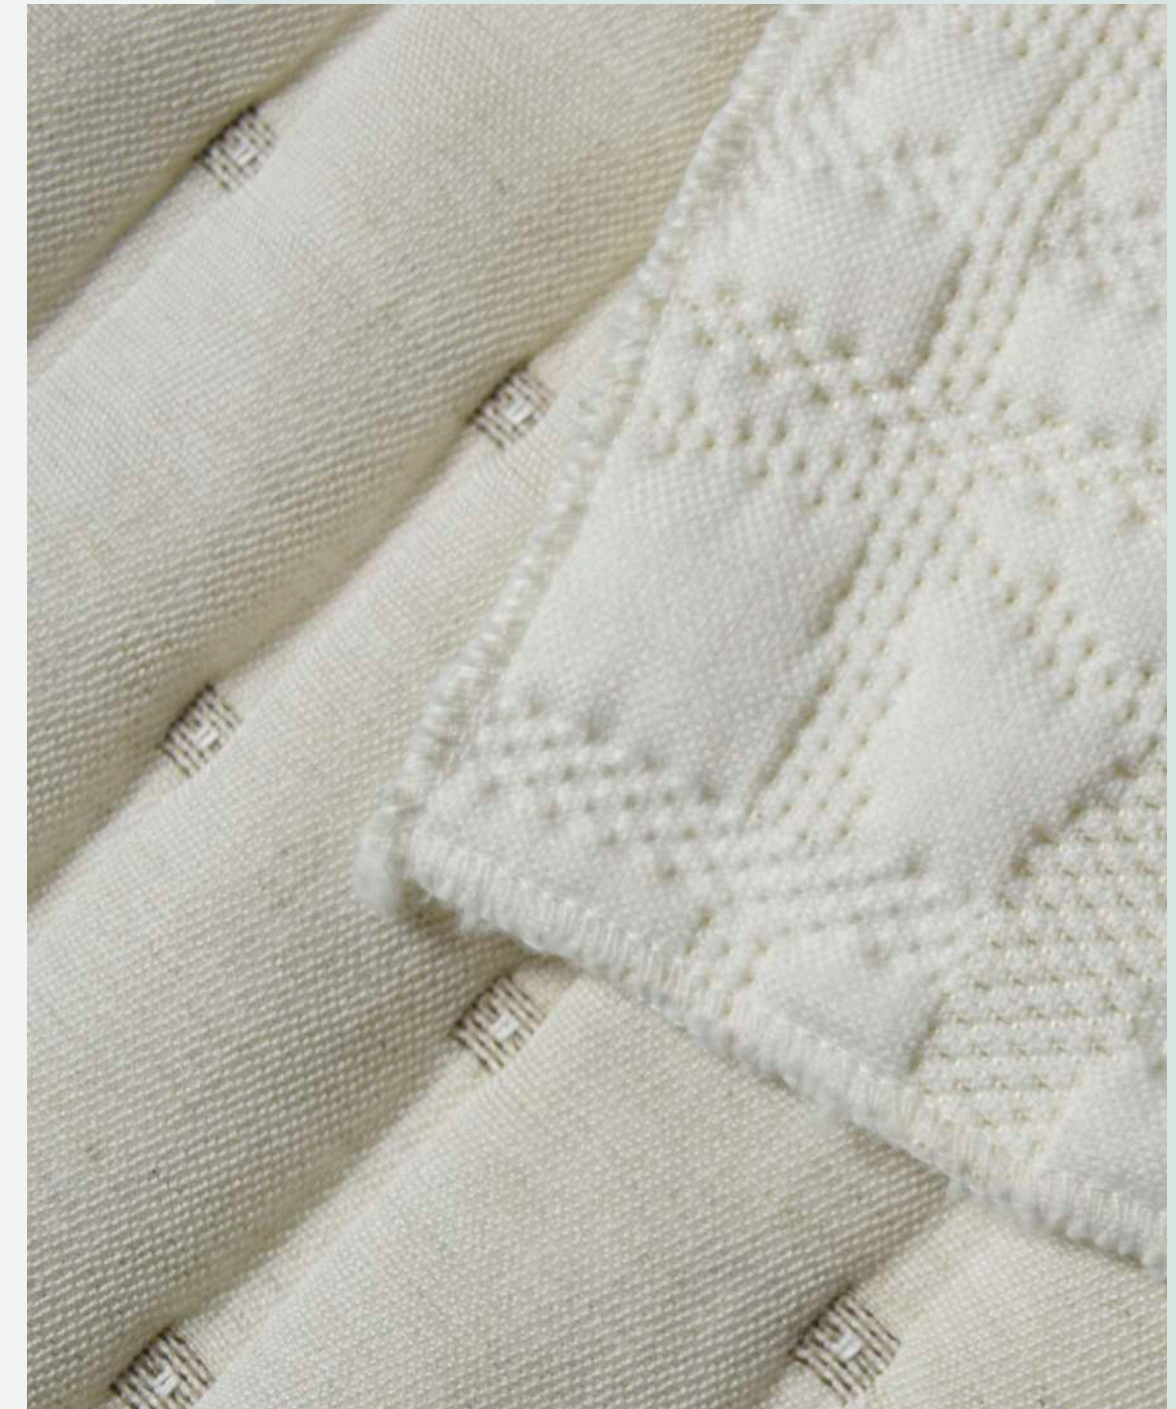

MESSAGE IN A BOTTLE

Typically, plastic bottles are made from PET, which is a highly recyclable material. Polyester yarn is one of its promising new applications and we are excited to put it into use with our Re-Use fabric.

More than just finding a new life for waste, it is the way it is produced and how it can be reused that makes Re-Use so unique: the production process of the fiber reduces soil contamination, air and water pollution; Saves natural resources and energy; Is endlessly recyclable.

Innova

More than just fabric

Innova explores the limits of technology but with great attention to sustainability.

Technical textiles where innovations are integrated to improve functionality. But also sustainable fibers such as organic cotton. Premium fabric for the added value seeker.

Essenza

More than just fabric

Essenza is inspired by the straight and unreserved Mediterranean lifestyle and its rich history. Think of ancient craftsmanship and warm colors – infused with an exotic, bohemian vibe and a touch of ethnic magic. Characterized by its honest simplicity but with attention to subtle details and graphic patterns, Essenza is a budget friendly collection. Basics without compromising on quality.

Eccellenza

An ode to eccentricity

Eccellenza, that's exclusivity in its purest form. For personalities who dare to look beyond the limits of imagination. For lovers of a traditional feel, luxury and refinement.

The Eccellenza style is characterized by its ornamental, eclectic motifs and the use of high-quality, more exclusive materials.

Eleganza

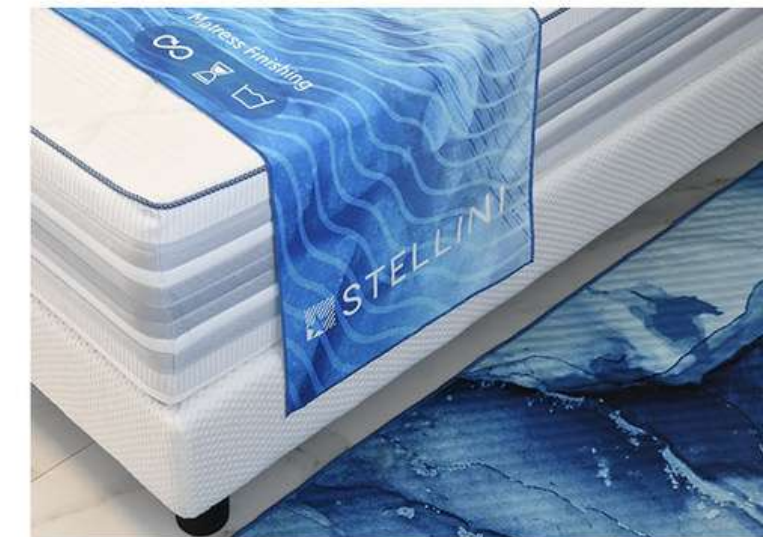

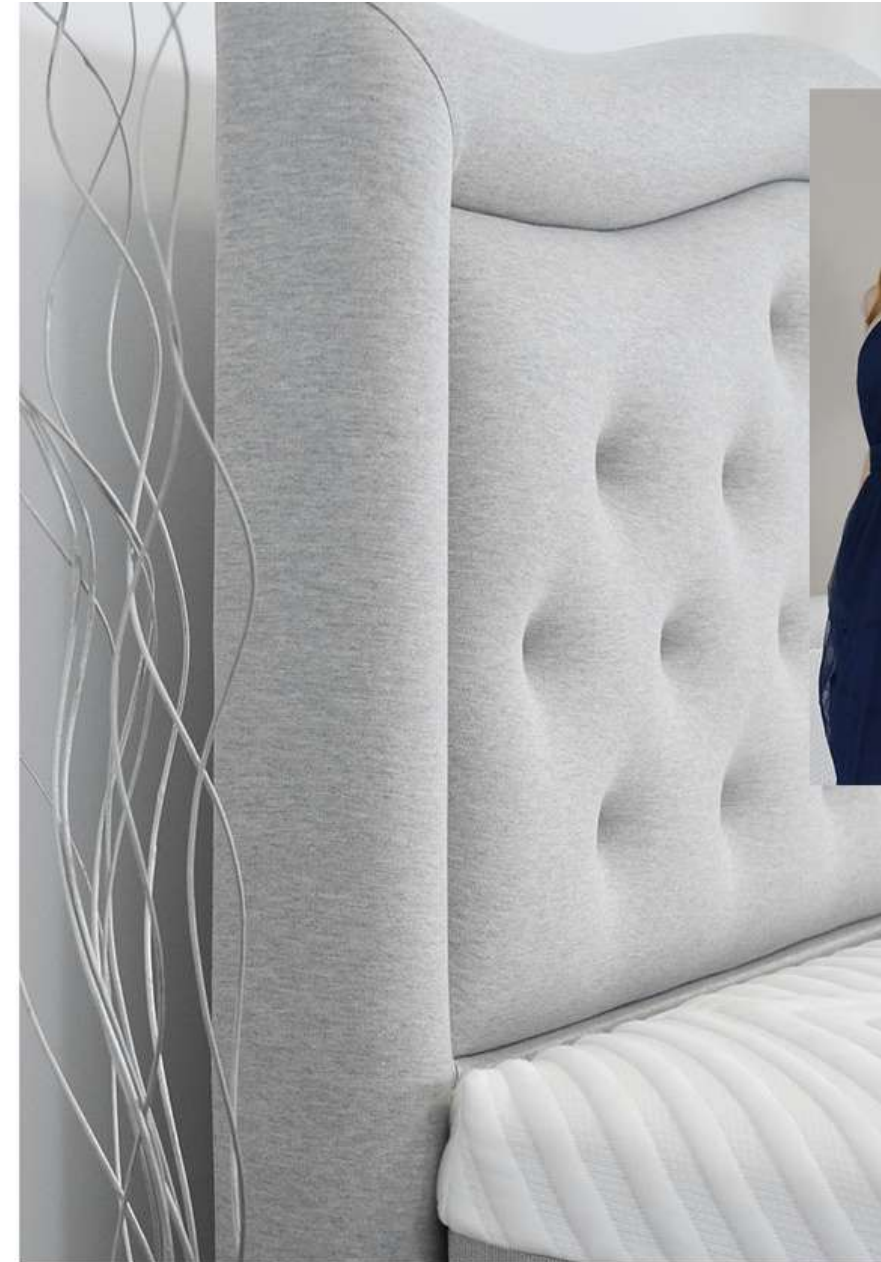

More than just fabric

Moon and planet inspiration. Elegant and quiet, yet refined. Sophisticatedly neutral. Mineral surfaces with a shimmery touch. Pearly, chine fabrics remind of the moon's glow.

Crater-like objects. Rammed earth. Imitation of the satellite structure. Luxurious aspect in all its soberness.

ctnassau.com

A silhouette of a person standing on the peak of a mountain. Above the person's head is a target icon with an arrow hitting the bullseye. The background is a dark, gradient sky.
