RE-USE

MESSAGE IN A BOTTLE

The plastic bottle fiber

20,000 plastic bottles are used every second. That's more than a million bottles every minute. 80% of these bottles is being added to landfills or end up in the ocean.

An ode to eccentricity

Eccellenza, that's exclusivity in its purest form. For personalities who dare to look beyond the limits of imagination. For lovers of a traditional feel, luxury and refinement.

Eleganza

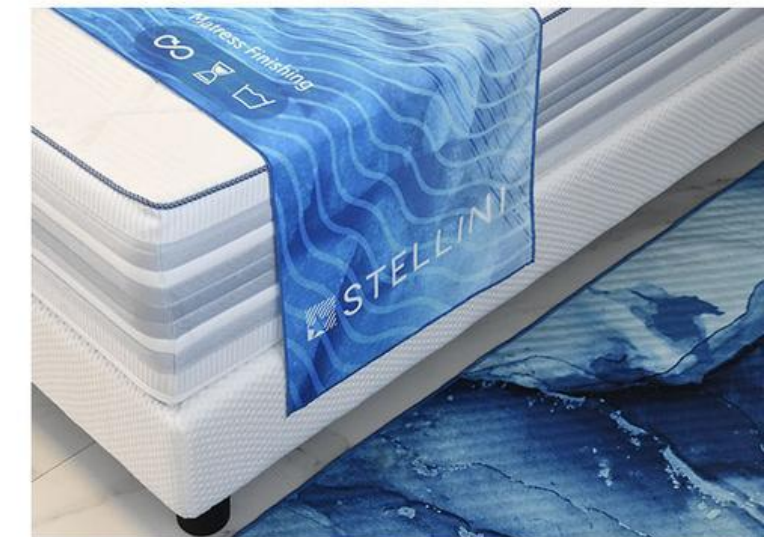

More than just fabric

Moon and planet inspiration.
Elegant and quiet, yet refined.
Sophisticatedly neutral. Mineral
surfaces with a shimmery touch.
Pearly, chine fabrics remind of the
moon's glow.

Crater-like objects. Rammed earth.
Imitation of the satellite structure.
Luxurious aspect in all its
soberness.
